# CardsOnline Digital ID

Mobile identification made easy

CARDSONLINE DIGITAL ID

CardsOnline introduces Digital ID, making it possible to design and send a digital pass to cardholders. In addition to or instead of the plastic card, the Digital ID feature offers three options, Digital ID as a PDF, as a Wallet pass and as Active ID to be used in the Active ID App.

Cardholders can have a printed card and/or a Digital ID. Select the needed card holders and send them a Digital ID with just a click on the button. Information is encrypted when it is sent. The card holders receive an email with a link to retrieve their Digital ID.

Use a Digital ID as a replacement for a temporary badge for example. Visitors, staff or students awaiting a printed badge can use their Digital ID in the meantime.

Issue Digital IDs via an email invite, using the CardsOnline Data Manager

Custom Design

Create a digital card design specific for mobile devices, in portrait or landscape mode, next to the standard card design you use to print on badges.

Instant Access

CardsOnline allows you to design, produce, manage and issue digital cards any time, anywhere.

Fast issuance via email

Issue Digital IDs via an email invite, make a selection of card holders and send them a digital pass with just a click on the button. Card holders receive an email invite with a link to retrieve their mobile ID.

Cost Efficient

Issuance of digital cards can lower the costs of your card production solution.

THREE DIGITAL ID FORMATS
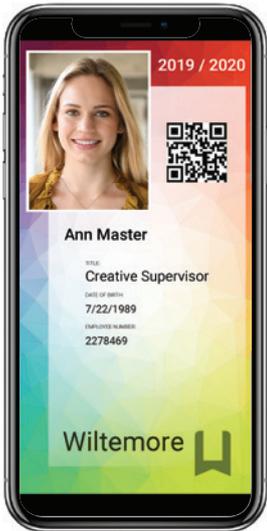

PDF (.pdf)

Digital ID has the option to use the content from the printed card design or create an extra design for the Digital ID in portrait mode perfect for mobile devices.
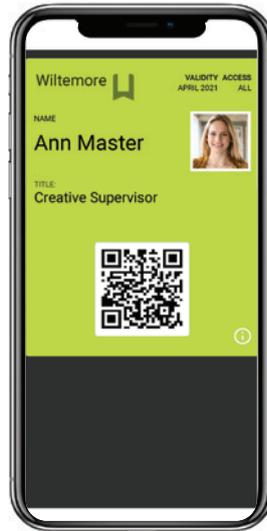

Wallet Pass (.pkpass)

Open a Wallet pass with the Apple Wallet app on iPhone or the PassWallet app on an Android phone. With the wallet app keep a digital version of your store cards, boarding passes, coupons, student ID cards and more in one place on your phone.

Active ID (Active ID App)

Create Active IDs with the Card Designer similar to a Digital ID PDF format. The CardsOnline Active ID App, allows employees , students or visitors, to receive, keep and manage their Active ID to use for mobile identification, access, or a Data Check.

"Use Digital ID for your employees, visitors or students."

DEMO REQUEST

CardsOnline offers the solution for designing, producing and managing cards at an unlimited number of locations using one online system.
